

Port of New York
& New Jersey

High impact jobs in
transportation, logistics
and distribution.
Join us.

Nearly every part of our consumer lives is impacted by the men and women who keep the Port of New York and New Jersey humming. Through a massive network of interconnected companies, goods from around the world pass through water, rail, roads, warehouses, and distribution centers to get to their final destination: store shelves where consumers buy them. This network – called the transportation, logistics, and distribution industry (TLD) – is what keeps our economy running, and it depends completely on a diverse workforce.

High-Impact Jobs With a Bright Future: Yours

With hundreds and thousands of companies in various industries and diverse positions to choose from, the transportation, logistics and distribution industry (TLD) is a thriving field for those seeking a high-impact career and a great future.

Build a Career, Build a Region: Make an Impact

As the largest port on the U.S. East Coast, the Port of New York and New Jersey is a premier gateway to the world and a vital link in the region's economy, moving billions of dollars in goods each year. Members of the TLD workforce are a vital part of an indispensable industry on which our nation depends.

The Right Job: Waiting For You

The port generates over 229,000 direct jobs and supports over 400,000 total jobs in the region. Whether you are entering the job market for the first time and need training or are looking to make a change, the maritime transportation, logistics and distribution (TLD) industry has numerous employers that have a job for you. Through the many events we hold throughout the year, you'll have a chance to match your background with training, internship and apprenticeship programs or a career that's right for you.

Build a Career In Transportation

A job in port transportation puts you in the driver's seat of the many transportation modalities that move goods from one location to another, including ocean-going vessels, harbor craft, trucks, and railroads.

Ocean-Going Vessels

Large commercial watercraft – container, cruise, and bulk vessels – that navigate the oceans and transport goods and passengers to and from port facilities from around the world offers careers as:

- Captains
- Cooks/Stewards
- Deck Engine Crews (unlicensed)
- Engineers
- Mates
- Mechanics
- Pilots

Railroads

A vast network of freight railroads and short lines move goods to locations throughout the nation. Careers in railroads include:

- Railroad Brake, Signal and Switch Operators
- Railroad Conductors and Yard Masters
- Rail Yard Engineers and Hostlers

Harbor Craft

Smaller vessels that operate primarily within the New York Harbor that move people and goods using barges, tugboats, pilot vessels, ferries, launches, and supply boats have careers as:

- Captains
- Deck Engine Crews (unlicensed)
- Engineers
- Mates
- Mechanics
- Pilots
- Sailors

Trucks

Approximately 85 percent of goods at the port are moved by drayage or container (short-haul) or trailer (long-haul) trucks. Truck drivers can be independent (own their truck and contract services to private companies) or drive a truck owned by an employer. Careers in trucking include:

- Availability Clerks
- Dispatchers
- First-Line Supervisors
- Mechanics
- Sales
- Truck Drivers, Light or Delivery Services
- Truck Drivers, Heavy and Tractor-Trailer

Build a Career In Logistics

Logistics is an intricate system that gets goods where they need to go. A career in the field means you are a part of the supply chain ensuring goods arrive to warehouses, distribution center, wholesalers, retailers and store shelves for today's consumers.
